# Indoor + Rackmount

---

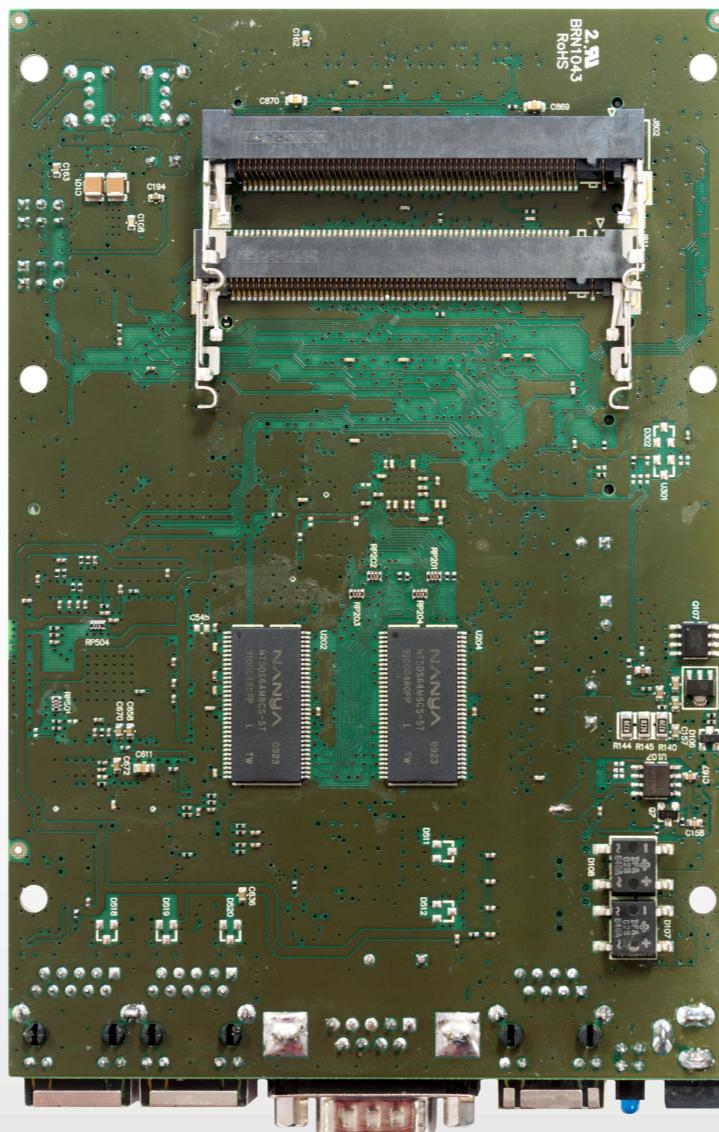

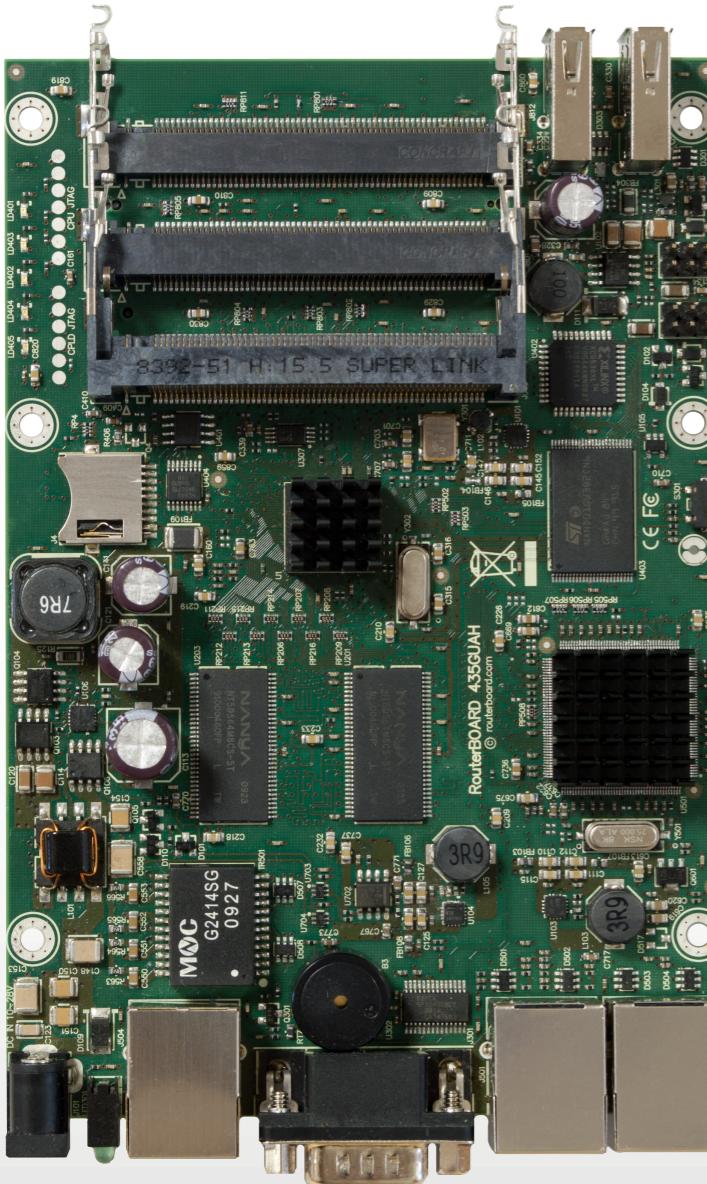

# SXT

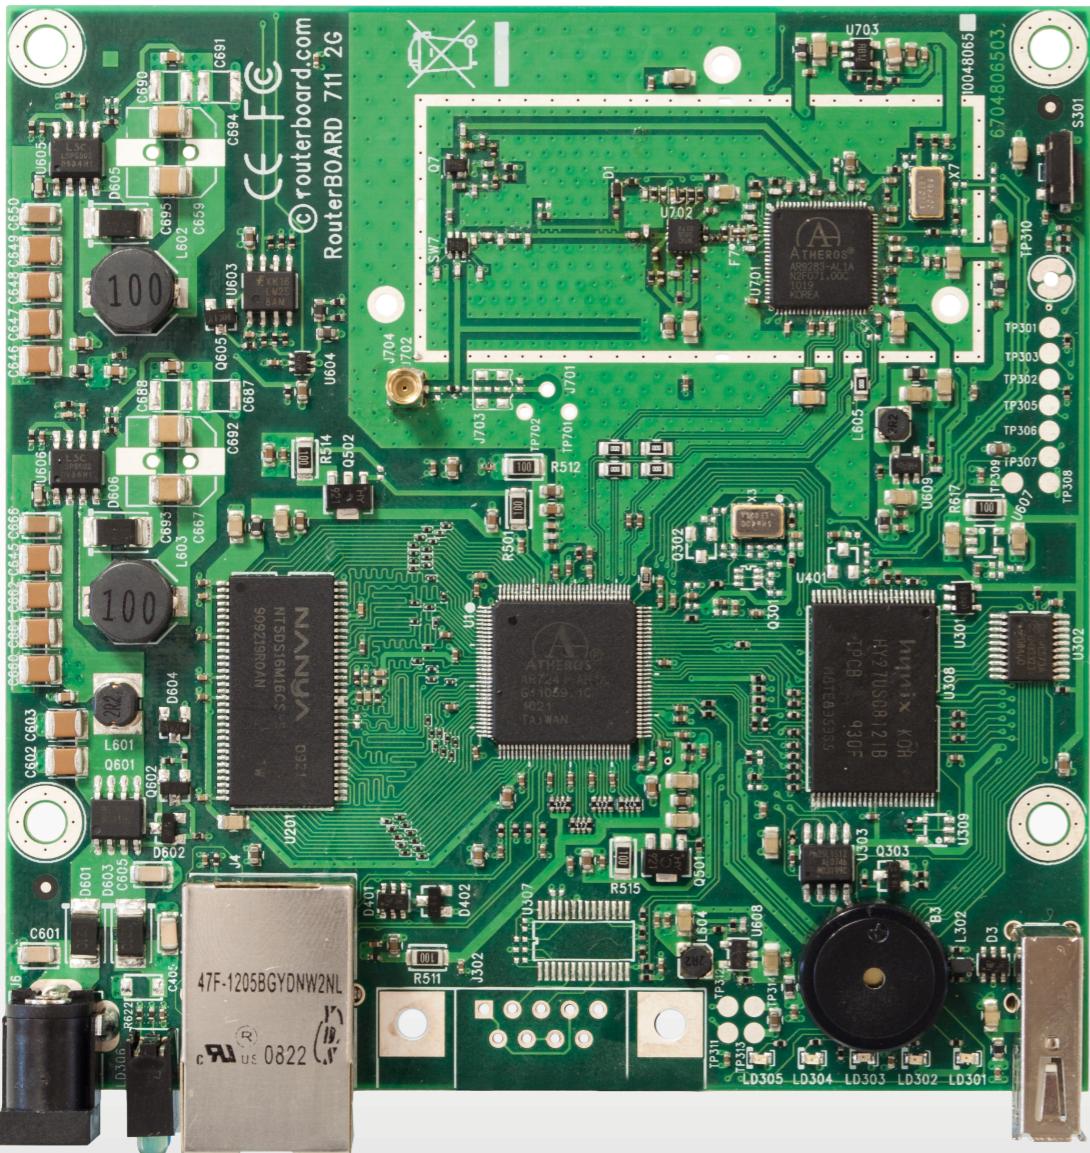

- Perfect CPE or PTP backhaul
- Up to 200Mbits total
- 5GHz 802.11a/n wireless module
- 16dBi dual polarization antenna
- Signal strength LED indicators
- One 10/100 Ethernet port
- USB 2.0 port
- Voltage and temperature monitors
- Already available

# RB435G

- 5 miniPCI
- 3 Gigabit Ethernet
- 800MHz CPU
- 2 USB 2.0
- microSD
- Fan headers
- 9-30V
- Four sectors,  
one backbone
- Available next month

# RB711-2Hn

- Same as current 711
- Instead with 2GHz
- 802.11n built in
- Perfect for CPE
- Available in May

# RB750UP

- Same as regular RB750
- + USB port
- + 24V Power Output on four ports
  - \* Controllable PoE out
  - \* SNMP support
  - \* Voltage and current monitors
- + Can power PoE capable devices
- + Less cables and PoE injectors
- Available in May

# RB751-2n

- SOHO 2GHz 802.11n AP
- 1TX and 2RX Antenna built-in
- Same size and case as RB750
- RB750 + Wireless = RB751-2n
- Available next month

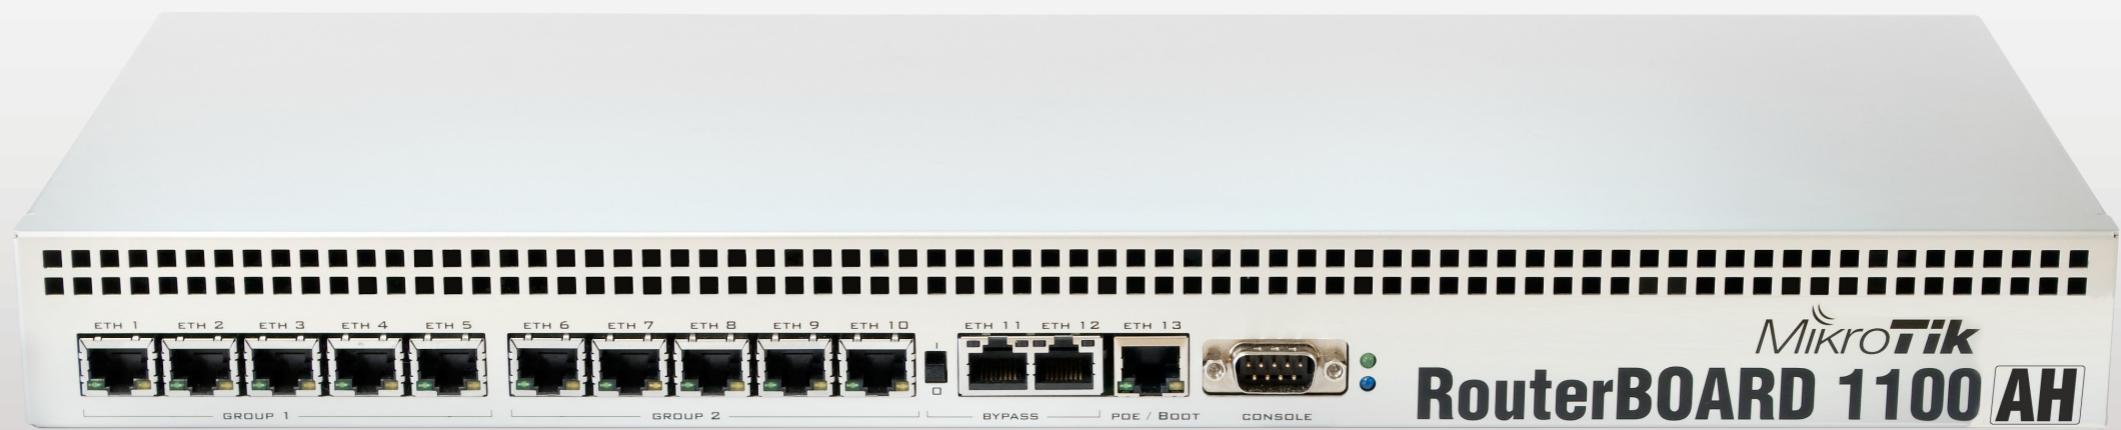

# RB751U and RB751G

- SOHO 2GHz 802.11n AP
  - 1W output power
  - MIMO (2Tx 2Rx)
- Antennas built-in
- High power radio
  - External MMCX
  - Slightly larger than RB751-2n
  - USB 2.0 port
  - PoE in
  - RB751U in April
  - RB751G in Q3 2011

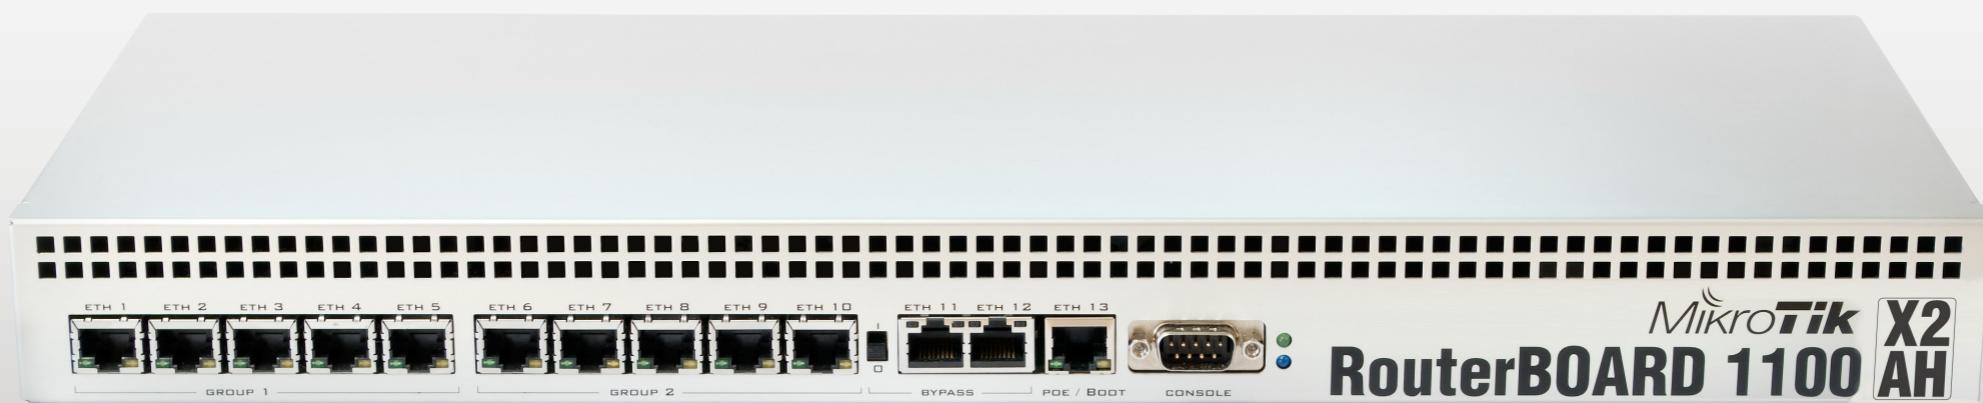

# RB1100AH

- New rackmount core router
- Same as RB1100 but faster
- New CPU
- Hardware encryption supported
- Available in June

# RB1100AHx2

- Even faster performance
- Dual core CPU system
- Completely new device
- Same form factor and case
- Fastest RouterBOARD to date
- Available in June

# RB1200

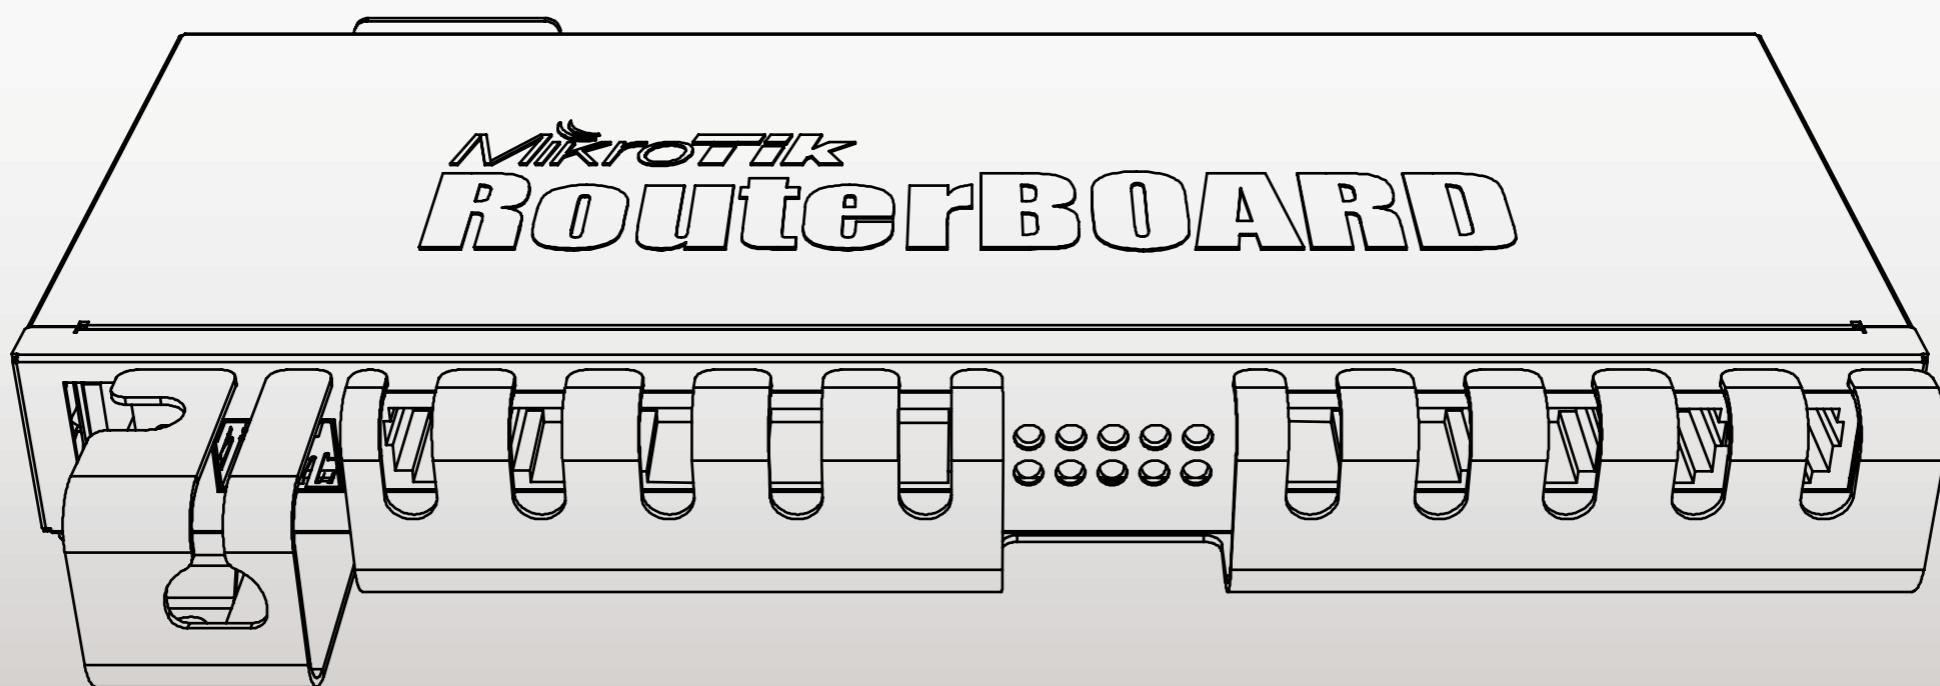

- New network CPU 1GHz
- Low cost rackmount
- 10 Gigabit ports
- One switch group
- No moving parts
- Available this month!

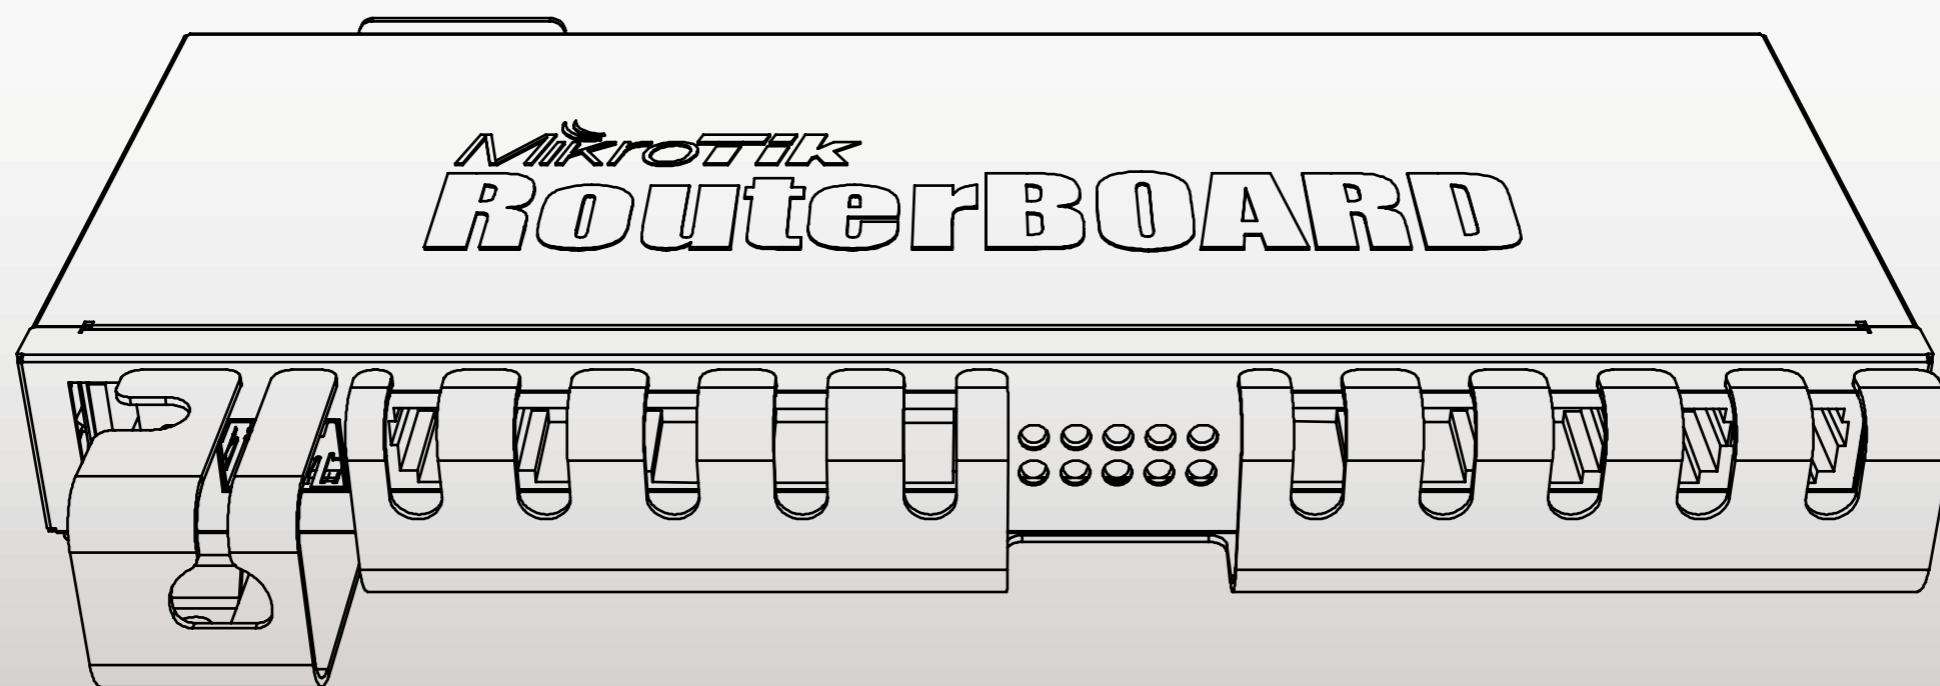

**RB2011**

- Even lower cost
- For homes and FTTx installations
- SFP port
- 5xGigabit, 5x100Mbit, USB
- 2GHz 802.11n wireless + antenna
- No moving parts
- Rackmount and Network closet versions
- Available in mid Q3 2011

- Secure wall mount
- Protects cables and device access
- Possible to lock

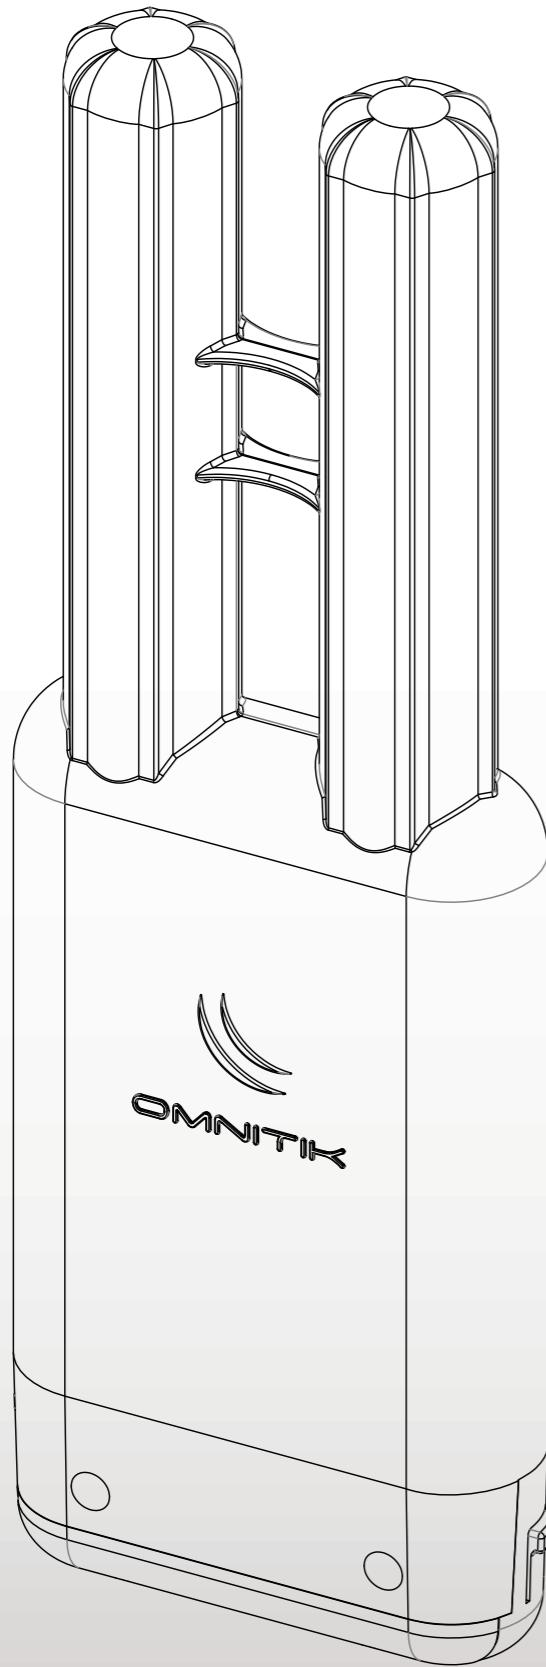

*www*  
Rittercard

# GROOVE

- Tiny outdoor CPE/AP
- Weatherproof
- N connector
- Fully featured RouterBOARD
- No moving parts
- RouterOS powered
- Available in May

# OMNITIK

- Outdoor AP
- Two external antennas
- Five ethernet ports
- Weatherproof
- Fully featured RouterBOARD
- No moving parts
- RouterOS powered
- Available in May
